Scan-dedicated i-Reporter

Replace Hand held terminals!

Dedicated devices	Work time	Errors
∨	∨	∨
No need	**Reduction**	**Prevention**
Replace hand held terminals with an iOS device using i-Repo Scan.	"MatrixScan" technology speeds up scanning of multiple barcodes at once and continuously.	Scan many types of barcodes and enable settings to only read barcodes matching specific conditions. Helps prevent operation errors and entering incorrect data.
