What is IP Whitelisting?

For those using i-Reporter Cloud, it is possible to whitelist access to the server from specific IP addresses.

- Only allow connections to the i-Reporter Cloud server from a specific network behind a single IP
- Only allow connections from a single server in another datacenter (Azure, AWS, GCP, etc.)

Pricing

- IP Whitelisting is an optional feature
  - Enabling it allows up to ten (10) IPs whitelisted
  - JP¥200,000

- Additional IPs over the initial ten (10) will be charged at JP¥10,000 per IP

* This rate is for partners & distributors and is open pricing
