**Continuously scan
multiple barcodes
in batches to
improve onsite tasks**

Upgraded with Powerful Scan!

High-speed barcode / QR code recognition with multi-code batch scanning.

i-Repo Scan

Powered by SCANDIT

Replace handheld terminals!

**Replace
handheld terminals!**

Dedicated devices

Not required

Replace handheld terminals by using iOS devices.

Work time

Reduction

"MatrixScan" technology enables fast, continuous scanning of multiple barcodes simultaneously.

Error

Prevention

Scan many types of barcodes and configure settings to read only those that match specific conditions. This helps prevent operational errors and incorrect data entry.

Advanced barcode scanning solution

i-Repo Scan

Powered by SCANDIT

Shipping & Receiving | Picking | Error Prevention | Data Validation

MatrixScan technology enables fast, continuous scanning of multiple barcodes simultaneously

Scans multiple barcodes and instantly shows valid and **invalid ones in color**

Scans even direct part marked **(DPM) barcodes on metal**

Create e-forms with built-in barcode scanning —**no coding required**

+\$1.3m

Protected \$1.3M in annual revenue by preventing undercharges.

+500h

Gained back 500 hours annually due to 7x faster picking of weighted items.

>30k

Prevented over 30k unhappy customers a year by eliminating overcharge errors.
